## General

**STYLE BOX** is the new style series for all Böhm-SEMPRA 2.0 organs and keyboards.

Each set of this series contains at least 15 styles, each with a specially arranged example SONG, each containing four "one-touch" presets, adapted to the four style variations. Whether traditional swing and fox rhythms, country and Latin styles, soulful ballads or groovy dancefloor beats - the AMADEUS STYLE BOX contains it all.

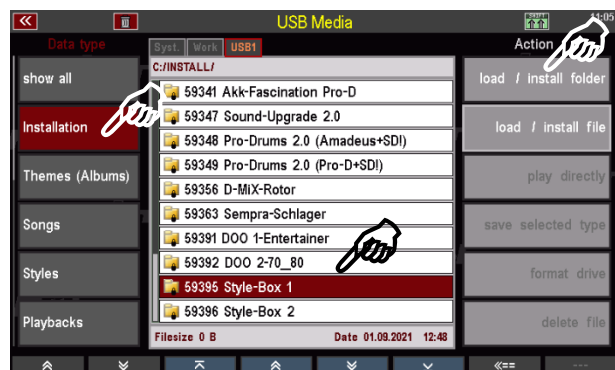

All rhythms are well-balanced, sound round and powerful and are arranged in a musically sensible and flexible way. It's fun to start playing right away!

A detailed list of the included styles, presets and sounds can be found in the appendix to these installation and playing instructions.

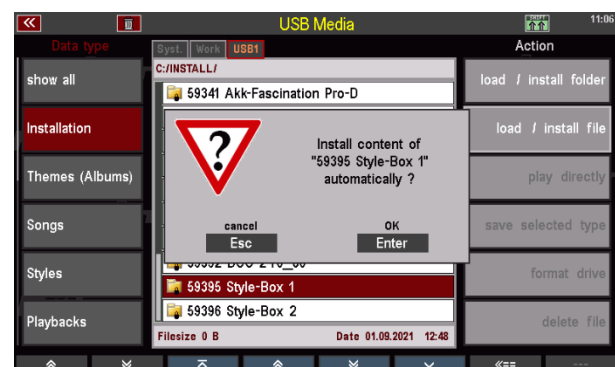

## Installation

The data of the Style Box 1 is supplied on the USB stick belonging to your SEMPRA and is installed in the instrument from there:

- Insert the USB stick into one of the USB sockets of your SEMPRA.
- Press the USB button to open the USB menu in the display.
- Tap the **Installation** data type on the left (the field is displayed in red).
- Place the cursor on the folder **"59395 Style Box 1"** using the **data wheel** or the **up/down cursor buttons** (do not open the folder!).
- Tap the **"Load/Install folder"** field on the right.

- The display asks whether you really want to install the data. Confirm with **[Enter]**.
- The data will now be loaded. You can then exit the USB menu (press the **[ESC]** key or the **[USB]** button again).

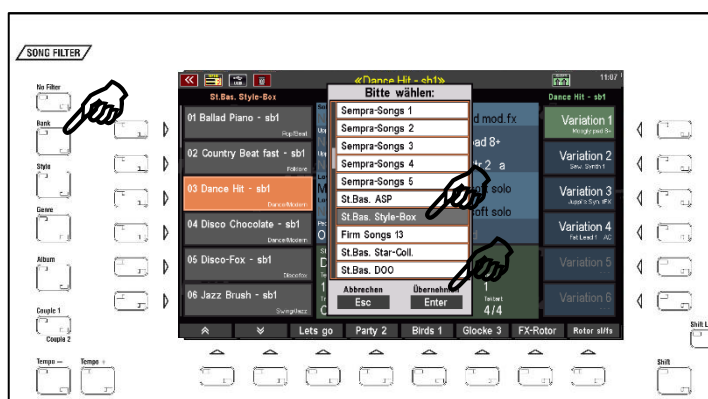

The STYLE BOX 1 data is now loaded and ready to use.

**Caution:** Please note that factory data, including the Style Box, is always installed on an account-specific basis. If you use additional user accounts on your SEMPra and the Style Box data is also to be used in these accounts, you may have to perform the installation again for these additional accounts!
