General

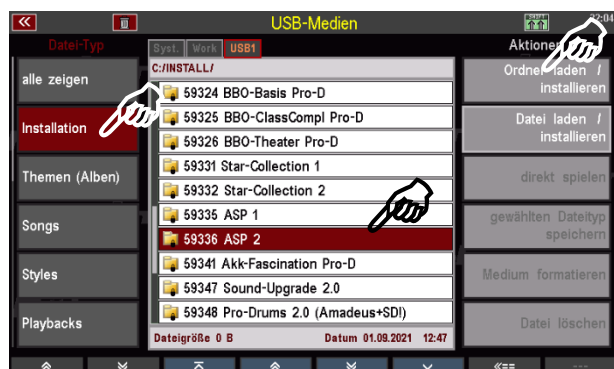

The **ASP 2** (AMADEUS Style Performance 2) style package continues the successful style series. With a lot of experience and attention to detail, our musicians have now put together another great-sounding style and preset package for your SEMPRA. AMADEUS Style Performance 2 offers you:

- 36 fantastic ASP Styles with 4 dynamically increasing variations each, versatile!
- 36 SONGS (ASP Style Basics) matched to the styles, each with 4 sample presets per style (One Touch Presets)

Installation

The ASP 2 data is installed in the instrument from the USB stick with the factory data that belongs to your SEMPRA:

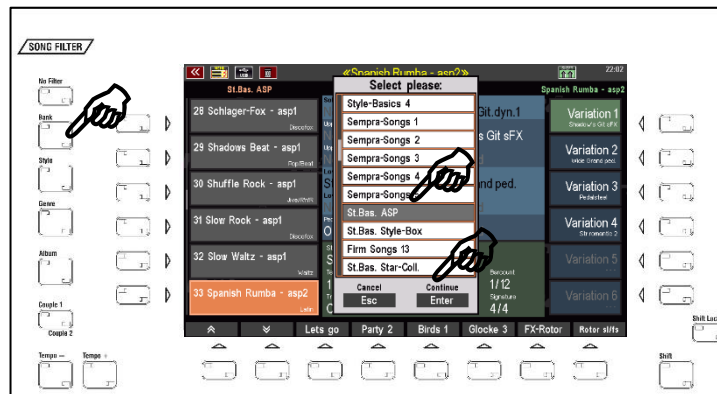

- Insert the USB stick into one of the USB sockets of your SEMPRA.
- Press the USB button to open the USB menu in the display.
- Tap the **Installation** data type on the left (the field is displayed in red).
- Place the cursor on the folder "**59336 ASP 2**" using the **data wheel** or the up/down **cursor buttons** (do not open the folder!).
- Tap the "**Load/Install folder**" field on the right.
- The display asks whether you really want to install the data. Confirm with **[Enter]**.
- The data (styles and SONGs) will now be loaded. Afterwards you can leave the USB menu again (press button **[ESC]** or button **[USB]** again).
- The **ASP 2** data is now loaded and ready to use.

Caution: Please note that factory data, including ASP 2, is always installed on an account-specific basis. If you use additional user accounts on your SEMPRA and the ASP 2 data is also to be used in these accounts, you may have to perform the installation again for these additional accounts!

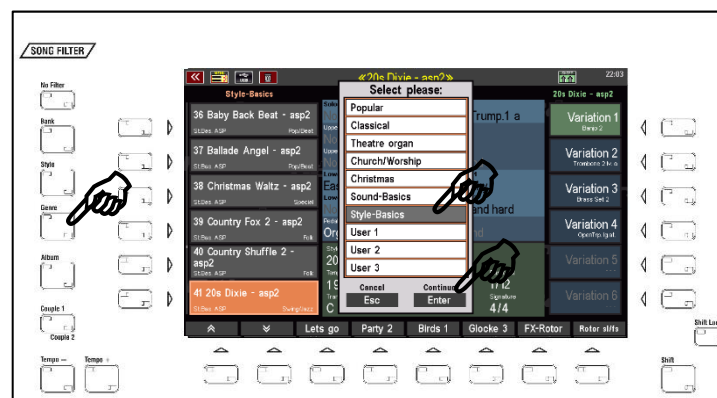

How to find the ASP 2 data?

The ASP 2 SONGS with the example presets can be found in the Firm SONGS bank 11 "St.Bas. ASP" (internal bank no. 111). Call up this bank e.g. via the SONG filter button [Bank] (press 2x, if not already selected) and then scroll to the corresponding bank position. Confirm with [Enter]. The SONG list on the left side of the display now shows the SONGs of ASP 2.

Alternatively, you can call up the **STYLE BASICS** genre for the SONG list. All ASP 2 SONGS are assigned to this genre.

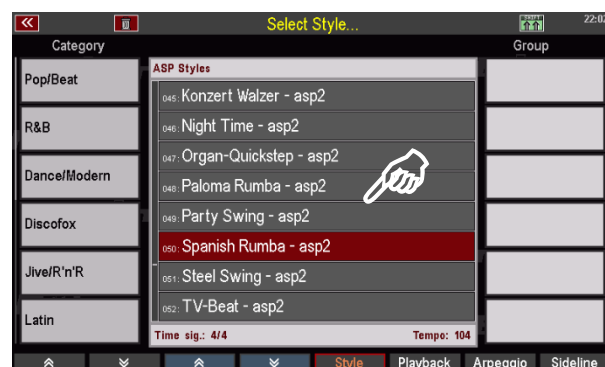

To do this, press the SONG filter button [Genre] (press 2x if necessary, if not already selected) and select the genre "Style Basics" from the list.

Confirm with [Enter]. The SONG list on the left now shows the SONGS of the genre "Style Basics", here among others the ASP SONGS.

SONGS of the ASP packages can be recognized by the abbreviation **asp1** or **asp2** in the SONG name.

The **ASP-STYLES** can be found in the Firm-Stylebank 11 (ASP). They are assigned to the corresponding categories and subgroups in the style selection. You can recognize ASP styles in the style selection by the abbreviation **asp1** or **asp2** in the style name.

Overview AMADEUS Style Performance 2

STYLES (Firm style bank 11)

Bank	Number	Name
